

*Delyth*

A graduate of the University of Wales, Delyth trained as a jeweller and designer at the North East Wales Institute of Art and Design before setting up a design studio in Llanfairfechan and a workshop in Yorkshire.

Delyth is the daughter of the well known Masonic writer Dr Robert Lomas, co-author of *The Hiram Key* and many other books on Freemasonry.

She has always been fascinated by Masonic symbols and began making Masonic jewellery for her famous father many years ago.

Now Delyth has decided to produce a range of sterling silver, hand finished Masonic jewellery, using the designs she first made for Bro. Robert to wear. The symbols which attracted him are not only the standard square and compasses but also more subtle Masonic symbols, such as the pillars and centre.

Delyth's late grandmother was also a Freemason and a lover of fine jewellery. Delyth has been inspired by her family connections to design delicate and unusual Masonic jewellery for both ladies and men.

Each piece is supplied with a certificate of authenticity signed by both Delyth and Robert Lomas.

In the middle of the First Degree Tracing Board of Freemasonry is a very important symbol, a circle bounded by two parallel lines. The ritual describes it as the point from which no Mason can err.

Delyth has turned this symbol into a set of cufflinks and a tie/ lapel pin. Made from polished sterling silver this beautiful cufflinks embody a key spiritual symbol of Freemasonry which is not well known outside the Craft.
